

CONSENT TO PERFORM EXTRACTIONS

PATIENT: _____

DATE: _____

PURPOSE

To remove Comedones or Pustules from the skin.

PROCEDURE

An extractor is used to remove the debris from the pore. The extractor is placed directly over the opening of each infected area and pressed into the skin. This process extracts the pore of Comedones or Pustules. Upon completion the skin is disinfected with a small amount of alcohol followed by our Acne Solutions Cleanser and moisturizer.

RISKS/DISCOMFORT

Some pressure and slight pinch sensation. Skin may have some swelling, redness, and blotchy appearance for approximately 24 hours.

QUESTIONS

A member of the Center for Dermatology & Skin Cancer staff has explained the nature of the procedure and its alternative treatments, and the benefits to be reasonably expected compared with alternative approaches and your questions were answered. If you have any other questions about this procedure, you may call us at (630) 964-2000. This document is written confirmation of this discussion.

CONSENT

You have read this form and understand it. You request the performance of the procedure(s) described above. You have been given a copy of this consent form. Your consent and authorization for this procedure is strictly voluntary. By signing this informed consent form, you hereby grant authority to perform Extractions.

The nature and purpose of this procedure, with possible complications, have been fully explained to your satisfaction. No guarantee has been given by anyone as to the results that may be obtained by this treatment.

I agree to have photographs taken for documentation as well as teaching and research purposes, as well as for possible use in publications.

I have read the consent and certify that I understand its contents in full. I have had enough time to consider the information and feel that I am sufficiently advised to consent to this procedure. I hereby give my consent to this procedure and have been asked to sign this form after my discussion with Center for Dermatology & Skin Cancer staff.
