## Introducing THERMA•FRAC

thermage

+

A combination of Thermage non surgical skin tightening and Palomar's StarLux Lux1540 fractionated skin resurfacing.

*How does Therma•Frac work?*

The Lux 1540 improves wrinkles, discoloration, spots, scars, sun damage, irregular surface while Thermage tightens skin. Therma•Frac is a single Thermage treatment, followed by several (usually five) Lux1540 laser treatments.

By combining the Thermage and Lux1540 procedures sequentially, tests have shown greater smoothing of the skin than with either procedure alone!
